YATTLL's product line includes two major directions: Smart travel, and Rehabilitation assistance. The products cover multiple categories such as smart electric wheelchairs, smart scooters, smart hospital beds, and smart homecare beds. etc.

The user's experience is always the first to Yattll. YALU Industry Co. set up its offices in Japan, Hongkong and many cities in mainland China, which not only helps YATTLL doing the deep researches of local market, but also collecting the customer's feedback the first time. This makes YATTLL adjust its market strategy freely and offer better customer services in a very short time.

Now, YATTLL's products are selling to more than 30 countries and regions each year. The high reputations, from not only personal users but also hospitals and medical agents, are always the motivation to us.

### Our Mission:

To provide Innovative medical products and services of superior quality and competitive price, to improve the lives for consumers all over the world.

### R&D:

YATTLL especially focuses on Innovation, there are more than 10 experienced engineers and designers in our R&D team. We launch 3-5 new items each year that meet the consumer's needs and comply with the market trends. We offer a variety of products for different areas and different consumer types. YATTLL also offers Custom design service for our valued customers, with us, your idea could be a mature product.
